PATHWAYS to grade-level reading
NC Pathways to Grade-Level Reading initiative is driven by the foundational belief that together we can realize greater outcomes for young children than any of us can produce on our own.
Pathways uses an **Equity Lens**

Leading with racial equity means prioritizing strategies that specifically work to improve outcomes for children of color and giving special consideration to the wisdom and innovation of people of color to develop responses that are lasting and reach all children.
Three Phases of Pathways

PHASE 1: Data Action Team—What do we need to measure to know children are on a Pathway to Grade-Level Reading?

PHASE 2: Learning Teams—How is NC doing on those measures? Where should we focus as a state?

PHASE 3: Design Team—What should we do about it? What expectations should we hold for child and family systems and what actions should NC take to improve outcomes for children birth-through-age-eight and their families?
Pathways Action Framework

Recommended actions:

- Address racial, ethnic, socioeconomic, and ability inequities
- Are data- and research-driven and informed by developmental science
- Address the whole child and family
- Are actionable and accountable
- Address critical gaps in our system

Full report available at: buildthefoundation.org
Pathways in **Action**

Pathways is serving as a **foundation of current early childhood state-level initiatives.**

- Leandro Commission for a Sound, Basic Education
- Early Childhood Advisory Council (ECAC)
- Early Childhood Action Plan (ECAP)
- Preschool Development Grant
- B-3rd Interagency Council
- Essentials For Childhood
- myFutureNC
- Think Babies™ NC
✓ Convening a Data Advisory Council and two data workgroups

✓ Providing a toolkit to support organizations aligning with Pathways

✓ Fostering collaboration across state-level initiatives and embedding Pathways

✓ Supporting early childhood systems in learning from and engaging families and local communities

✓ Keeping a sustained focus on racial equity in early childhood systems building

✓ Communicating strategically to keep Pathways relevant and valuable

✓ Tracking and analyzing policy and sharing progress on how policies and practices advance the Action Framework

✓ Supporting policy work on some actions in the Action Framework

✓ Convening Pathways Partners annually
Early Childhood Data Advisory Council

Outcomes at Kindergarten Entry Data Workgroup

Social-Emotional Health Data Workgroup

Data Development
Our work will **inform Pathways** and the ECAP

**GOAL 9: ON TRACK FOR SCHOOL SUCCESS**

**NC EARLY CHILDHOOD ACTION PLAN**

**Goal 9: On Track for School Success**

**COMMITMENT:** Young children across North Carolina will reach their developmental goals by the time they enter Kindergarten.

**2025 TARGET:** By 2025, increase the percentage of children across North Carolina who enter kindergarten at a level typical for their age group, according to the five domains of the NCDPI Kindergarten Entry Assessment (KEA).
Work Group Goals and Process
<table>
<thead>
<tr>
<th>Measure(s)</th>
<th>Communications</th>
<th>Next Steps</th>
</tr>
</thead>
</table>
| • Accessible and inclusive across language, race and ethnicity  
• Holistic - all domains of development  
• Part of larger context of families, schools and communities | • Clear messaging on purpose of measure  
• Messaging targeted to stakeholders: policymakers, communities, early educators and families | • Identify work that still needs to be done  
• Make recommendations for further research, action and discussion |
Process Map

Define scope
- Define goal, roles and tasks
- Racial Equity Lens
- Review landscape of measures
- Identify key questions and other resources needed

Review and Assess
- Presentations of state models/measures
- Identify several options for further consideration
- Identify additional resources or experts needed

Analyze
- Align with Guiding Principles and Criteria
- Racial Equity Lens - What do we know about bias in these measures?
- Feedback loops - where/how do we need further input

Recommend
- Draft measure recommendations
- Draft communications strategies
- Identify next steps
- Feedback loops
Questions?
How does this work fit with...

the current work going on in North Carolina right now?

all of the work and lessons learned in the past?

a focus on the system and how we can support children and families?
Goal 9: On Track for School Success

COMMITMENT: Young children across North Carolina will reach their developmental goals by the time they enter Kindergarten.

2025 TARGET*: By 2025, increase the percentage of children across North Carolina who enter kindergarten at a level typical for their age group, according to the five domains of the NCDPI Kindergarten Entry Assessment (KEA).
Literacy Development Milestones

Percent of children developmentally on-track at kindergarten entry.
School Readiness in North Carolina

Strategies for Defining, Measuring, and Promoting Success FOR ALL CHILDREN

Report of the
Ready for School Goal Team
Full Report

Submitted to the
North Carolina School Improvement Panel
North Carolina State Board of Education
June 2000
School readiness definition:

Defining School Readiness in North Carolina: The School Readiness Puzzle

School readiness is a puzzle with two pieces:
1. The condition of children when they enter school.

2. The capacity of schools to educate all children, whatever each child’s condition may be.
All children are ready for school and can succeed at some level.

Readiness should be defined broadly to include community, school, family, and children’s developmental levels.

Readiness definitions and measurements should be holistic, including multiple domains of a child’s development and taking individual and cultural differences into account.

Data on children’s readiness should be used to design individualized curriculum but not to determine a child’s placement in school.

Schools have the responsibility to be “ready” to serve all children.

Ready for School Goal Team Beliefs:
Framing

• Holistic approach to child development

• Child development is within a context of families, schools and communities.

• Systems focus – how can we be ready to support children and families

• Not using ‘ready’ and ‘not ready’ language
RACIAL EQUITY
A Path to Community Impact

We Believe:

• confronting how structural power is operating in all systems is essential to clear analysis and strategic action to create systematic and sustainable change;

• structural racism is the through line of systemic oppression in our culture, and so any analysis of the potential outcomes of a system must include a thoughtful examination of how race is operating structurally, both internally and externally; and

• inequity is structural and historic in nature and can be examined, confronted and interrupted given the skill and will of thoughtful individuals and groups.
OpenSource Leadership Strategies, Inc. amplifies the work of social justice groups as both units and agents of equitable systems change.

The OpenSource team researches, designs, and evaluates racial and social justice efforts, as well as builds capacity of organizations, movements, and leaders to advance racial and social justice.

OpenSource is led by Founder and Chief Strategist Gita Gulati-Partee.

What is Equity?

Equity is doing the same things you’ve always done, the same way you’ve always done them, and just saying “EQUITY” more often.

~ paraphrased (sarcasm) from Vu Le, Nonprofit AF blog
Building Equity Capacity means…CHANGE!

Infusing equity principles, practices, decisions, and actions into strategy, programs, advocacy, communications, relationships, internal operations and culture – for improved and sustainable mission impact.
LENS

FOCUS

CHANGE
DIVERSITY LENS

Focus on Composition

“Who is present?”

Representation
INCLUSION LENS

Focus on Relationships & Experience

“Who is participating?”

Engagement
EQUITY LENS

Focus on Outcomes & Root Structures

“How is power operating?”

Ownership
EQUITY & EQUALITY

Equity is a proactive, strategic approach to improving outcomes that accounts for structural differences in power, opportunities, burdens, and needs in order to design targeted solutions and make systems work equally well for all people.
A social and political construct, created by Europeans during the time of worldwide colonial expansion, to assign human worth and social status – using themselves as the model of humanity – for the purpose of legitimizing and concentrating their power.

~Adapted from Dr. Maulana Karenga
RACE is a man-made sorting system with very real impact

- A hierarchy of human value – speciously based on phenotype, ethnicity, religion, nationality, language, lineage, etc. to serve the interests of the ruling class
- An allocator of power, benefits, and burdens
- Continuously constructed through the distribution of advantages and disadvantages
- The most durable predictor of outcomes
Structural Racism

The cumulative impact of racialized disparities in power over time.
“A racially equitable society would be one in which the distribution of resources, opportunities, and burdens is not determined, predictable, or disproportionate by race.”

~ Philanthropic Initiative for Racial Equity
Focus explicitly, not exclusively, on race to...

• Get results that matter & last. Equity doesn’t trickle down… by prioritizing the needs and outcomes of people of color, we can close gaps and improve outcomes for everyone.

• Build power. Race has been used as an effective “wedge” tactic throughout history… develop skill and confidence to build solidarity and win.

• Solve problems. By design, race is the most durable predictor of outcomes… and facilitates injustice of all kinds.
Applying a Racial Equity Lens

1. **Acknowledgestrong>** how life options and outcomes are shaped by interacting structures and power relationships that benefit some and burden others based on racial identity and other social determinants.

2. **Analyze** the cumulative impact of structures and power relationships on a specific issue, condition, or population.

3. **Strategizestrong>** structural interruptions and innovations to close gaps and improve outcomes and opportunities for all.

4. **Repeat...**
Pathways uses an **Equity Lens**

Leading with racial equity means prioritizing strategies that specifically work to improve outcomes for children of color and giving special consideration to the wisdom and innovation of people of color to develop responses that are lasting and reach all children.
“To say that it is not our fault does not relieve us of responsibility. We may not have polluted the air, but we need to take responsibility, along with others, for cleaning it up... The task for each of us... is to identify what our own sphere of influence is (however large or small) and to consider how it might be used to interrupt the cycle....”

From Beverly Daniel Tatum, Ph.D., “Why Are All the Black Kids Sitting Together in the Cafeteria?”
Strong Measures

We're going to review both Pathways Guiding Principles and Criteria for Measures. We will develop criteria for strong measures of Child Development at Kindergarten Entry.
Pathways **Principles**

- We will be data-and research-driven and informed by developmental science.
- We commit to acknowledging and eliminating systemic inequities and racial, ethnic, socioeconomic and ability disparities in early childhood experiences, opportunities, and outcomes.
- We will focus on the whole child, birth-through-age-eight, in the context of his or her family and community, using a multi-dimensional systems lens.
- We will be transparent, collaborative and accountable to one another.
- We will be informed by and hold ourselves accountable to families and communities.
- We will have a strength-based approach, highlighting protective factors and preventative solutions, and be guided by compassion.
- We will work to ensure that each child has the opportunity to fulfill his or her potential.
- We will prioritize solutions that are actionable and sustainable, and we will have high expectations of what is achievable. We will be results-oriented, embracing innovation and seeing change as opportunity.
Criteria for a **Strong Measure**

- **Research-based.** Connected clearly to the top-line result through research.

- **Actionable.** Is something that can be reasonably affected through state or local legislation; policy, program or practice change; or community action.

- **Impactful.** Will impact the lives of a number of NC children and families.

- **Easily Communicated.** Can be easily understood by parents, policymakers, and other key stakeholders.

- **Decreases Inequities.** Will reduce gaps and inequities that currently exist among North Carolina populations.
Criteria with a racial equity lens

• **Research and data-based.** Connected clearly to the top-line result through research, developmental science and lived experience of people of color, which we hold as primary and crucial data.

• **Actionable.** Is something that can be reasonably affected through state or local legislation; policy, program or practice change; or community action.

• **Impactful.** Will impact the lives of a number of NC children and families, particularly in communities of color.

• **Easily Communicated.** Can be easily understood by parents, policymakers, and other key stakeholders.

• **Decreases Inequities.** Will target and address racial, ethnic, socioeconomic, and ability inequities with structural solutions.

• **Strengths-based.** Highlights protective factors and preventative solutions, amplifying the assets and innovations of communities of color.
Reflections?
Break!
Measure Purposes: What is the Landscape (and what is our focus?)

- Improve instruction
- Inform additional services
- Accountability
- Program and system evaluation

Identify population trends, needs, and gaps
Our Focus: **Trends, Needs, and Gaps**

Our Work...

Informed by:
- Review of state models, best practices, and new developments in the field
- Targets and sub-targets within the Early Childhood Action Plan
- Content experts, practitioners, and program liaisons
- Workgroup members and other stakeholders
North Carolina Measures and Models

- Pathways Measures of Success
- Early Childhood Action Plan
- Smart Start
- NCDPI Kindergarten Entry Assessment
National Summary

• National Research Council – Recommendations on Child Assessment
• National Center for Children in Poverty summary of state indicators for early childhood
• Center on Enhancing Early Learning Outcomes, Child Trends and Ounce Prevention Fund – Review of KEA use in states
• Healthy and Ready to Learn National Outcome Measure
• National Survey of Children’s Health
• Discussion of measures to study further
• Designed appropriately for the population being evaluated—including being culturally and linguistically responsive

• Developed based on the intended purposes of the assessment.

• Collect information on multiple areas of development, including social and emotional growth.

• Use more than one tool as necessary if there are multiple objectives.

• Assess the reliability and validity of the assessment in relation to intended purposes.

• Ensure that the process is sensitive to cultural and linguistic contexts and other characteristics of the children being assessed.

National Research Council (2008)
NCCP proposed indicators

- Overarching Outcomes
- Population-based Risk Measures
- Health and Medical Home
- Special Needs
- Social-emotional Development and Mental Health
- Early Care and Education
- Family Support and Parenting
Review of KEAs in states

• 40+ states are using kindergarten entry assessments

• Variation of what is being assessed and purposes of data being collected

• Two broad categories KEAs can be used:
  • Improving practice at the school level
  • Identifying system-wide needs and trends

• Inappropriate uses of KEA data:
  • High-stakes accountability for programs, teachers or children
  • Screening or diagnosis

Other **Tools/Measures**

- Child Trends Healthy and Ready to Learn National Outcome Measure (NOM) – Dale Epstein

- National Survey of Children’s Health – Marian Earls
What measures do we need to study further during next meeting?
Kindergarten Entry Assessment
Today’s Purpose
A brief overview of the NC Kindergarten Entry Assessment: *the what, why, and how*
What is the KEA?
KEA is a formative assessment process

KEA is...

• observations of student behaviors (say, do, make, and write)
• gathering and matching evidence (observations) to learning progressions
• using what is learned from observations about where students are along the progressions to adapt instruction, and provide support to move students to the next level

KEA isn’t...

• a test given to students
• a one-time activity of gathering and matching evidence
What is the next skill the student needs to learn?

What will it look like when the learning target has been met?

What can help me learn what the student knows?

What do the evidences of learning tell me about the student?

Knowing this information, how can I respond to the needs of this student?

Defining the KEA in Practice

See pages 18-23 of the KEA Guidebook here
## Legislative Requirements

KEA is part of the Read to Achieve legislation.

See page 5 of the KEA Guidebook [here](#).

NC Kindergarten teachers share about the KEA
Additional Resource: Overview Video
Why are we doing this?
Consensus of Professional Wisdom

• Personalizes students’ learning by providing multiple ways for them to show what they know and grow.

• Facilitates differentiation within authentic contexts that clearly target the current learning of each student in order to move them forward.

• Research supported by NC experts (*NC Think Tank, 2013*)

• Designed and tested by NC educators.
Why KEA matters: A Principal’s Viewpoint
What are construct progressions?
KEA Construct Progressions

Construct progressions identify the building blocks for acquisition of concepts/skills/practices over time.

Construct progressions are not standards, pacing guides, or curriculum scope and sequences.

Construct progressions lay out increasingly more complex understanding of core concepts, principles, or skill development, providing a picture of what it means to develop in an area of learning (Heritage, 2008)

• At-A-Glance Construct Progressions see pages 15-17 of the KEA Guidebook here

• KEA Construct Progression Book downloadable here

Promote Understanding

Promote public understanding of and support for policies that promote children’s birth-to-eight years for academic and lifelong success.

Spearhead Collaboration

Convene and spearhead collaboration to bridge North Carolina’s birth-to-five and kindergarten-to-third grade systems.

Advance Policies

Advance policies that create a stronger NC today and tomorrow by supporting each child’s birth-to-eight development.
